

In 2016 our main projects were

Transition pathways and risk analysis for climate policies (EU H2020)

Innovation for climate change mitigation (EU H2020)

Enhancing competitiveness of sustainable bio-energy in Europe (EU IEE)

Platform for knowledge on climate policy implications (EU FP7)

Connecting SMEs for a green economy (EU FP7)

Energy saving policies and energy efficiency obligation schemes (EU IEE)

Energy efficiency policy support (EU H2020)

Methods for supporting industrial energy efficiency (EU H2020)

Guidance on Technology Action Plans (UNFCCC, UNEP DTU)

...and the JiQ Magazine on climate and sustainability. Subscribe at www.jin.ngo/jiq-subscribe to receive the quarterly magazine by email.

Merry Christmas and a Happy New Year!

We look forward to further collaborating with you in 2017. Enjoy the holidays!
